«KLOWN KONZEPT» is a dedication to all clowns and a tribute to audiences everywhere without which the theatre could not exist. The actions of the KLOWN are a silent declaration of love to all humanity and a fragile but indispensable response to the barbarism of our world.

Accompanied by the PHOTOGRAPHER, the KLOWN - mute - wanders for several hours throughout the city. He plays with all the people he meets. The PHOTOGRAPHER captures all situations and its priority is above all to reveal the emotions of the public much more than the attitudes of the KLOWN.

Every day the PHOTOGRAPHER makes available to the organizers, on Internet, a selection free of rights of the photos of the day. This gallery of portraits and situations can be adapted for a projection.

«KLOWN KONZEPT» was created at the International Festival of Street Theaters of Krakow in Poland and has been played in Deventer (Nederland), Bremen and Ahlen (Germany), Zary (Poland), Seoul and Ulsan (Korea).
